dr chrono

Premium Features Powered by Updox

Enhance your patients' experiences, boost office productivity, and drive organizational profitability - all from one location powered by DrChrono's Updox Integration!

Our customers benefit from a broad set of capabilities that work together in a secure and easy-to-use collaboration platform.

Improve Engagement

Make it easier to interact with patients in methods they prefer.

Secure, Two-Way Text Messaging

- Attach documents, forms, photo and videos

Video Visits

- Take visit notes within the Video Visit screen that populate in your post-visit summary

Broadcast Messaging

- Send communications by text message, phone call or email

Patient Reminders

- Create custom reminders and workflows that fit your practice's needs

Increase Productivity

Don't waste your time with multiple solutions that only complicate your practice.

Electronic Medical Forms

- Capture medical intake forms online
- Send secure texts with links for patients to fill out forms
- Save time and streamline patient encounters

Electronic forms can be sent, electronically signed, and returned, even without an appointment! The completed forms can then be sent directly to the patient's chart in DrChrono with the click of a button.

Streamline Communication

Securely coordinate care with other providers and free up valuable staff time.

eFax with Advanced Fax Routing

- Send & receive faces with unlimited pages through a HIPAA-compliant inbox w
- Automate organization, ownership, and priority of each document that comes in

Inta-Office Messenger

- Our HIPAA-compliant chat allows you to message staff from any location or device.
