See Patients Efficiently, Apply Medicine Effectively

Fast, Yet Effective Patient Care

- Fast charting with medical forms customized for common urgent care conditions including UTIs, lacerations and flu
- Provide care and document by patient side with full featured EHR on iPad and iPhone
- eRx w/EPCS: e-Prescribe both regular and controlled substances on iPad, iPhone & web
- Send labs and receive results directly into patient chart from over 40,000 labs
- Accept new patients and pull up old patients quickly with easy to use interface

Maximize Profitability

- Minimize door-to-door time to increase patient throughput
- Reduce overhead cost with self check-in Kiosk stations on iPad
- Replace your back-office with full service RCM including coding
- 48 hour turnaround on denials and rejections
- Increase your claims submission rate
- Stay on top of your billing status with a dedicated account manager
- Save time and improve billing accuracy by entering patient data only once

Elevate Patient Experience

- Allow patients to self check-in on iPad Kiosk immediately upon arrival
- Eliminate paperwork with digital check-in forms on iPad
- Let patients book appointments after hours
- Offer easy appointment booking experience with customizable online booking widget with provider availability and virtual queue
- Reduce Patient Wait Time with Virtual Queue (available with integrated partner)

Increase Repeat & New Patient Visits

- Increase new patient conversion rate and fill last minute cancellation with real time online provider availability and self booking feature
- Improve patient satisfaction with instant feedback loop and minimize negative reviews
- Boost practice reputation by generating reviews on Yelp and Google with easy to use social review feature

All-in-one Integrated, Cloud-Based EHR on iPhone iPad web

- Seamlessly integrated patient scheduling, clinical workflow and medical billing
- Single system of records preventing transcription errors, multiple data entries and lost bill
- Complete data access on one cloud-based system
- Pre-appointment insurance eligibility check and automated reminders
- HIPAA compliant patient portal with secure messaging
- Advanced clinical tools including customizable medical forms, medical speech-to-text tools and photo charting

What Urgent Care Centers Are Saying About DrChrono

" The entire process of setting up and customizing DrChrono was incredibly easy and after a few short training sessions with our very own implementation specialist we were ready to go.

DrChrono allows my nurses to very quickly register a patient, input charges and bill them out with no difficulty at all. One of the biggest selling points of the system is the integration with our lab company where patient lab tests can be ordered right from DrChrono with only a few clicks and lab results go straight into the patients' medical record.

In the past we had to use 4-5 different computer systems in order to accomplish everything we can do with DrChrono. The cost savings, lab integration and friendly user interface (including mobile) are just some of the reasons why we are extremely happy with DrChrono and won't ever look back.

- Urgent Care 24/7, Jerry Williams, MD "
