## Family Medicine Specialty Essentials

### Powerful Patient Engagement

Communicate with patients through HIPAA-compliant secure messaging, allow patients to schedule appointments online, send patient education materials, and more.

### Interface for Lab Orders & Imaging

Order blood work and lab orders directly from iPad, iPhone, or web to 40,000+ integrated labs. Receive and review results directly in patients' charts.

### Custom Vitals

Track patient measurements like BMI, heart rate, and more from each visit and visualize patient progress across multiple visits in one glance.

### Referral Capabilities

Send referrals to any specialty doctors with customizable messages instantly on iPad, iPhone, or web.

## Your Practice Can Be Generating More Revenue

Much of a practice's lost revenue comes from improper coding or poor claim submission. With a **94%+** clean claim rate and **48-hour** turnaround on denials, DrChrono Revenue Cycle Management will maximize your practice's revenue collection and improve profits. Simply set a claim as ready for submission and let us handle the rest for you.

Previous groups I was in, we would have to send a ticket to our IT department to request something be changed in the template. Not with DrChrono. From day one it was fast and easy. When I started Inspire Family Health, I imagined being able to walk in with my iPad and just be able to chart on it. DrChrono was the first EHR that I had ever used that didn't build an iPad application as an afterthought. It was my first feature rich, intuitively designed mobile EHR.
