

EHR and Medical Billing for Orthopedic Practices

Optimize patient care & grow your practice

Ranked #1

#1 Mobile EHR by Black Book 2013 - 2019

Top 10 EHR by Black Book for Orthopedic

#2 EHR by KLAS for 2-10 Provider Practices

Orthopedics EHR Essentials

Direct Clinical Charting on X-Ray, MRI, and CT Images

Access and annotate X-rays, MRIs, and CT images directly from your iPad or iPhone and add them instantly to your clinical note. Easily reference images in surgery or upload intraoperative photos for post-surgical review and sending to referring providers.

Optimized for Ambulatory Surgical Centers (ASC)

Easily submit treatment plans and surgical pre-authorizations with in-app consent forms and DrChrono's medical billing software and clearing house integrations will take care of the rest. Manage the ASC and the practice consent forms and fees in one place.

Chart with Speed Using Prebuilt Orthopedic Forms

Customize or use pre-built orthopedic medical forms immediately available in the DrChrono Form Library for common conditions including shoulder and knee exams, trigger point injections, hip surgery and more.

Fast Billing with Orthopedic ICD10/CPT/Custom Codes

Automatically populate any combination of orthopedic specific codes including modifiers into your forms speeding up medical and patient payment billing processes.

Maximize Payment Collection with Full Service RCM

Much of a practice's lost revenue comes from improper coding or poor claim submission. With a **96%+ clean claim rate** and **48-hour turnaround on denials**, DrChrono Revenue Cycle Management will maximize your practice's revenue collection and improve profits. Simply set a claim as ready for submission and let us handle the rest for you.

What Orthopedics Are Saying About DrChrono

Our total cost of ownership is lower than any other system that we've evaluated. The ease of use for doctors is dramatically decreased the number of calls to the help desk from physicians and patient engagement on the patient portal is higher than our previous provider.

- Top 10 EHR for Solo Medical Practices in 2017-2019 by Black Book

Innovate Your Patient Care with DrChrono EHR

o Breakthrough Clinical Charting

- Chart in seconds with customizable orthopedic medical forms programmed with your specific workflow and preference.
- Enter patient information once and automatically pass data to clinical charts, e-prescription, lab orders, billing, and more.
- Easily e-prescribe controlled and noncontrolled substances to your patient's preferred pharmacy wherever you are on iPad, iPhone or web.
- Always have pre-authorization consent forms easily accessible in your exam forms with guardian consent and signature timestamps for when a patient signed off for a procedure.
- Track orthopedic metrics like motor power test, edema ranges, orthopedic range of motions, pain level at rest and with activity, and more using DrChrono's Custom Vitals.
- Dictate directly into specific forms using directly integrated medical speech-to-text.

o Do More with Your Practice

- Save time with integrated EHR & medical billing that eliminates double-entry and human errors. Quickly verify deductibles and coinsurance with real time insurance eligibility check before appointments.
- Easily manage referrals from other physicians by attaching faxes directly to a patient chart.
- Get paid faster with Industry leading iHCFA integration as well as with Emdeon and Trizetto.
- Order labs and imaging from any of DrChrono's 40,000+ integrated labs and imaging centers and receive results directly into the patient's chart.

o Elevate Patient Experience

- Allow patients to make appointments online or on the phone and send automated reminders via text/phone/email.
- Communicate with patients with DrChrono's HIPAA-compliant patient portal
- Easily access and share patient education materials during an appointment or via patient portal.
- Coordinate care between referring providers, therapists, and other rehab programs within DrChrono EHR.
- Save patient's preferred medications and pharmacy.
- Minimize paperwork with digital intake and consent forms that automatically are attached to the patient's chart.
