

DrChrono EHR and Medical Billing for Pain Management Practices

Optimize Patient Care & Grow Your Practice

Ranked #1

#1 Mobile EHR by Black Book 2013 - 2018

Top 10 EHR by Black Book for Pain Management

#2 EHR by KLAS for 2-10 Provider Practices

Pain Management EHR Essentials

Charting with Speed

Customize or use prebuilt pain management forms immediately available in the drchrono Form Library for common evaluations and procedures including ESIs, ablations and trigger point injections.

Pain Management Flow Sheets

Use dynamic flow sheets to track and report on specific patient vitals, pain levels and other conditions. Easily run reports based upon patient vitals such as pain level for various types of reports.

eRx and EPCS in Office or On-the-Go

Easily e-prescribe controlled and noncontrolled substances to your patient's preferred pharmacy wherever you are on iPad, iPhone or web. Save preferred medications and display all local pharmacies on a GPS-enabled map. Plus, view medications prescribed by other physicians to avoid substance abuse and fraud.

Optimized for Ambulatory Surgical Centers (ASC)

Easily submit treatment plans and surgical pre-authorizations with in-app consent forms. Manage the ASC and practice operations in one place, or easily integrate drchrono to your ASC EHR.

Maximize Payment Collection with Full Service RCM

Much of a practice's lost revenue comes from improper coding or poor claim submission. With a **94%+** clean claim rate and **48-hour** turnaround on denials, drchrono Revenue Cycle Management will maximize your practice's revenue collection and improve profits. Simply set a claim as ready for submission and let us handle the rest for you.

For 2 years, every Tuesday, my Office Administrator would look for an EMR system for the practice. We were looking for something intuitive, straight-forward, and user-friendly. drchrono is the best for that and they are constantly improving. The switch from paper was a little tough for me, but I love using drchrono now. We were able to set up our templates and it saves time. It's also easy to take to the ASC because drchrono is on my phone.

- Dr. Alexander Zonshayn, MD, AZ Pain Management Clinic

I think about what my doctors and what my patients are going to be looking at. I've gone through 5 different EHRs over the course of my 30+ years of experience, and with drchrono, I have a solution for my entire practice and I know I have the best software for my practice.

- Dr. Timothy Davis, MD, Orthopedic Pain Specialists

Top Reasons Pain Management Specialists Love Us

o Do More with Your Practice

- Save time with integrated EHR & medical billing that eliminates double-entry and human errors. Enter patient information once and automatically pass data to clinical charts, e-prescription, lab orders, billing, and more.
- Quickly verify deductibles and coinsurance with real time insurance eligibility check.
- Easily manage referrals from other physicians by attaching faxes directly to a patient chart.
- Order blood work or imaging from any of drchrono's 40,000+ integrated labs or imaging centers on iPad, iPhone or web and receive results directly into the patient's chart.
- Get paid faster with Industry leading iHCFA integration as well as with Emdeon and Trizetto.
- Minimize paperwork with digital intake and consent forms by having patients check in on iPads or through drchrono's online patient portal and automatically attaching the forms to the patient's chart.
- Automatically populate pain management codes for different appointment types or trigger codes based on notes taken in medical from.

o Progressive Clinical Charting

- Chart in seconds with customizable pain management forms programmed with your specific workflow and preference.
- Access your schedule and detailed patient charts using a full-featured native EHR app on iPad and iPhone.
- Dictate directly into specific forms using integrated medical speech-to-text eliminating tedious note taking.
- Access and annotate X-rays, MRIs, and CT images directly from your iPad or iPhone and add them instantly to your clinical note. Easily reference images in surgery or upload intraoperative photos for post-surgical review and sending to referring providers.
- Text expanding buttons and shortcuts customizable to fit your shorthand.

o Elevate Patient Experience

- Allow patients to make appointments online or by phone and send automated reminders via text/phone/email.
- Easily access and share patient education materials during an appointment or via patient portal.
- Coordinate care between referring providers, therapists, and other rehab programs within drchrono EHR.
- Communicate with patients with drchrono's HIPAA-compliant patient portal with patient accessible mobile apps and integrations.
