#1 Mobile EHR by Black Book
2013 - 2019

Top EHR by Black Book
for Plastic Surgery

17+ Million

Patients cared for by
DrChrono providers

Plastic Surgery EHR Essentials

Chart with Speed Using Prebuilt Plastic Surgery Forms

Customize or use pre-built plastic surgery forms immediately available in the DrChrono Form Library for common procedures and exams including augmentation mammoplasty, rhinoplasty, botox injections and more.

Fast Billing with Plastic Surgery ICD10/CPT/ Custom Codes

Automatically populate any combination of plastic surgery or practice specific codes from your fee schedule to bill insurance or patients. Even track inventory used during procedures to automatically bill such as botox and fillers.

Direct Clinical Charting on X-Ray, MRI, and CT Images Plus Digital Photos

Give patients choices and confidence, with easily accessed and uploaded diagrams and pre/intra/postoperative images during an appointment or via patient portal from your camera, mobile device, imaging center, or the web. Annotate on any of these images to upload directly to the patient chart or send with other patient education materials.

Increase New and Existing Patient Appointments

Improve your web traffic, online conversions, appointment attendance, and reputation with patient engagement tools including marketing, reputation management, scheduling, reminder and follow-up. Increase your practice appointment volume with DrChrono's built-in tools and integrated partners including Zocdoc, Demandforce, and more.

What Plastic Surgeons Are Saying About DrChrono

“DrChrono gives my staff the flexibility to have consent forms pre populated at check-in or lets us populate it in the EHR during pre-op and I'm getting paid more than I've ever been and it's all thanks to DrChrono's billing service. I've never used anything like this.

- Dr. James Rieger, MD
Plastic Surgery Wichita Kansas

I am the president of the local Plastic Surgery Society and I have tried 4-5 different software. I love DrChrono and strongly recommend it to all my colleagues.

- Dr. Joel Toro Pagan, MD
President and Society of Plastic Surgery of Puerto Rico”

Top Reasons Plastic Surgeons Specialists Love Us

◦ Do More with Your Practice

- Manage your ASC and practice operations in one software or easily connect DrChrono to the ASC EMR.
- Always have pre-authorization consent forms easily accessible in your exam forms with guardian consent and signature timestamps for when a patient signed off for a procedure.
- Order pre- and post-operative blood work or imaging from any of DrChrono's 40,000+ integrated labs or imaging centers on iPad, iPhone or web and receive results directly into the patient's chart.
- Save time with integrated EHR & medical billing that eliminates double-entry and human errors. Enter patient information once and data is automatically passed into clinical charts, eRx, lab orders, billing, and more.

◦ Breakthrough Clinical Charting

- Chart in seconds with customizable plastic surgery medical forms with logic-dependent form, text-expanders, medical dictation and your specific workflow.
- Access your schedule and detailed patient charts using a full-featured native EHR app on iPad and iPhone.
- Dictate directly into specific forms using directly integrated medical speech-to-text.
- Easily e-prescribe controlled and noncontrolled substances to your patient's preferred pharmacy wherever you are on iPad, iPhone or web and check for other drugs that were prescribed to patients from other providers.
- Save preferred medications as well as display a GPS-enabled map of all local pharmacies and save each patient's preferred pharmacy.

◦ Elevate Patient Experience

- Provide patients the highest tier of service in communication with DrChrono's HIPAA-compliant patient portal with patient accessible mobile apps and integrations.
- Minimize paperwork with digital intake and consent forms by having patients check-in on iPads or DrChrono's patient portal. All information is and are automatically uploaded to the patient's chart.
- Save credit card information on file through the EHR or patient portal to easily manage patient payment plans and increase cash flow.
